The privacy of all supporters is protected. Phone numbers are only used by students for fundraising. The information will not be entered anywhere other than the student's cell phone.

There are no emails to collect, or constant bombarding of emails going out to your friends and family for weeks. This is a one hour program, with personalized text and a phone call and that is it!

Why it Works

97% of texts are read within 3 minutes

Parents don't like giving away email addresses;
Emails are often mistyped, deleted,
or stuck in spam and never
make it to the intended
recipient.
